

Empowering the Future of Innovation and Entrepreneurship

Welcome to the 10th edition of the DIN-ECO newsletter! We are excited to share our latest achievements and activities aimed at boosting innovation and entrepreneurial spirit within Higher Education Institutions (HEIs). Whether you're a student, academic, entrepreneur, expert, or stakeholder, there's something here for you.

DIN-ECO

Seminars to Support Academic and Non-Academic Staff in Terms of Innovation and Technology Transfer

Research commercialization strategies

December 18, 9:00 CET

European Institute of Innovation & Technology

Recent Seminars on Innovation and Technology Transfer

In December, the DIN-ECO project conducted a series of seminars designed to enhance the innovation and technology transfer capabilities of academic and non-academic staff. These sessions covered crucial areas such as intellectual property management, commercialization strategies, and effective communication skills.

Participants benefited from hands-on training and mentorship from seasoned scientists, bridging the gap between theoretical research and practical applications. These seminars show DIN-ECO's commitment to empowering HEIs to become integral parts of European innovation ecosystems.

Webinar on Research Commercialization Strategies

This webinar provided invaluable insights into transforming academic research into market-ready products and services. Held on 18 December 2023 as part of our seminars on Innovation and Technology Transfer, the webinar addressed key topics such as the commercialization lifecycle, legal and financial considerations, and successful case studies.

Expert speakers shared practical advice and real-world examples, equipping researchers and entrepreneurs with the necessary tools to navigate the complexities of the commercialization process. This initiative aligns with DIN-ECO's goal of increasing the entrepreneurial capacity of HEIs.
